POST-DEMAND ARTICLE 34 AMENDMENT

Dear Sir:

Pursuant to PCT Article 34(2)(b), applicant amends the above-captioned application prior to International Preliminary Examination. Replacement sheets are attached. Differences between the replaced sheets and replacement sheets are noted below.

SHEET 2

In the first paragraph, a spelling error in the word "depiction" is corrected.

In the paragraphs briefly describing figs. 11, 12, "any" is changed to "an" and, in the former paragraph, an extra period is deleted.

SHEET 5

In the paragraph beginning at line 18, "The data format" is changed to "One possible data format" and "fig 11" is changed to "fig 11 and Table 1."

SHEET 6

In the paragraph beginning at line 6, "Degree" is made lowercase.

SHEET 7

In the paragraph beginning at line 11, "(AR)" is changed to "(AS)" and "(at line 21)" is changed to "(shown in this particular example at line 21)".

In the paragraph beginning at line 16, two instances of the abbreviation "khz" are changed to "KHz"

In the paragraph beginning at line 28, two instances of the abbreviation "khz" are changed to "KHz" and the word "encoded" is capitalized.

In the paragraph beginning at line 36, spelling of the word "misalignment" is corrected.

SHEET 8

In the paragraph beginning at line 3, the abbreviation "KhZ" is changed to "KHz."

SHEET 10

In the paragraph beginning at line 3, the third and fourth sentences are made into a single compound sentence.

SHEET 12

In the paragraph beginning at line 32, spelling of the word "extremities" is corrected.

SHEET 14

In the first paragraph, spelling of the word "telepresence" is corrected.

SHEET 15

In the paragraph beginning at line 11, a parenthetical phrase "area outside of the active image area" is added to explicitly clarify the meaning of the term "background field," as understood from the overall disclosure of the specification filed.

A period is appended to the last paragraph.

SHEET 16

In the paragraph beginning at line 17, "beacon's" is corrected to read "beacons" and "Such as a system" is corrected to read "Such a system."

BEST AVAILABLE COPY

SHEET 17

In the paragraph beginning at line 4, the phrase "each active beacons could each produce" is corrected to read "each active beacon could produce."

In the paragraph beginning at line 23, two instances of "beacon's" are corrected to read "beacons."

SHEET 18

The paragraph beginning at line 3 is numbered as "4.8)."

SHEETS 19-27

Claims 1-68 are cancelled, leaving claims 69-125 pending in the application. The replacement claim set occupies one less page, and sheet 27 is now blank.

SHEET 28

The abstract is changed to better summarize the invention, mindful of the fact that the claims, rather than the abstract defines the various aspects of the invention.

DRAWING SHEET 20

Two arrows erroneously pointed both forward (as appropriate) and backward, away from the direction of view. The backward arrowheads are deleted to conform with the disclosure of the drawing and specification as filed.

Please feel free to telephone the undersigned if there are any questions.

Respectfully submitted,

Dated: February ____, 2003

Angus Richards
